

## HVAC Piping Kits

FlexEJ manufactures boiler manifold kits for some of the UK's leading commercial boiler OEMs.

The products are supplied against weekly call off and demand very high standards of consistency and integrity.

Based on our thorough knowledge of expansion, piping and pressure vessel manufacture FlexEJ can offer to design and build cost competitive piping or manifold packages for your individual requirements in the HVAC market.

Kits will include the main piping to manifold the boilers together and may also include

- Frames for boiler mounting
- Mixing Headers
- Insulation
- Pumps

We would be pleased to discuss your plant room needs and also the range of other HVAC equipment we offer

- Air & Dirt Separators
- Dosing Pots
- Rubber Bellows
- Metal Bellows
